Strategy

Digital Strategy

We look at the big picture before drilling down to the detail

We start with a preliminary analysis of your:

- Objectives
- Target audience
- Current digital presence
- Current overall communication approach
- Resources (people and budget)

With these elements, we produce a digital strategy and roll-out plan that follows the SMART rule (specific, measurable, attainable, realistic, time-bound).

We're here to make sure you see the ROI of your digital communication.

Services

Strategy

Naming

What's in a name? A significant part of your identity and your difference.

It's not just a word. In a name there is:

- meaning
- sound
- shape
- character

We run creative **name-storming sessions**. We use tested techniques to help you explore all the possibilities and understand all the associated perceptions.

Services

Strategy

Concept Identification

At the heart of a powerful brand lies a promise.

The challenge consists in defining that promise clearly and making it obvious to your target audience, both in your communication and through all your actions.

We get to the core of your brand identity and highlight that promise. It is the CONCEPT that will guide the creative approach, giving your communication it full force.

Services

Strategy

Brand Positioning

Brand identity is the extent to which visitors are familiar with the qualities, products or identity of a particular business. Conversely, Brand awareness refers to a state of knowledge pertaining to an existing brand identity, and one that enables visitors to identify brand, narratives and even colours that are synonymous with a certain business.

We can help you answer these questions. Our approach builds on the Audit & Benchmark, providing you with an opportunity Map.

A chance to assess your current positioning in relation to the competition and to identify a potential strategic adjustment.

Services

Strategy

Audit & Benchmark

Build on your strengths. Understand your weaknesses.
Know your competition.

We can provide you with:

- Audit of your current communication, in relation to your business model and brand identity
- SWOT analysis (Strengths, Weaknesses, Opportunities, Threats)
- Market context and trends
- Consumer analysis
- Benchmark of relevant companies

These elements will arm you to go forth and take on the competition with a clear vision.

Brand Identity

A strong and clear brand identity is key to harnessing the full potential of your digital communication.

Digital is the means. Your brand identity defines and guides the message.

We can help you cristallise all the elements that determine your brand identity:

- Unique Selling Point
- Target Audience
- Mission
- Vision
- Values
- Personality
- Ambition

Creative Copywriting

The inestimable power of words
we make sure the words in all your digital communication
deliver the essential: Information, Inspiration,
Action.

How do we do this? It's a creative process:

- We build on your brand identity to define the tone and style that truly represent your uniqueness.
- We gain understanding of your target audience to ensure everything we say is relevant and insightful.
- We research all information to present it forcefully and accurately, without forgetting the emotional dimension.
- We combine the words with spot-on visuals for full impact.
- We lead to a 'Call to Action' that is loud and clear

Brand Content

Branding and online advertising are different facets of a comprehensive marketing strategy.

Companies and organizations use branding to create a look, feel and message for themselves that will be remembered by visitors.

Online Advertising is used to convey that brand directly to consumers through various Social media,

- Facebook
- Twitter
- Pinterest
- Instagram
- Online Advertising Platforms

Social Listening

People are constantly talking online. You'll want to know when they're talking about you. It's clear that social listening has become a critical customer intelligence tool.

We set up the necessary tools to monitor and analyze what people are saying about your brand and your products / services.

The advantages are there to be seized:

- Gain insight, in real time, into what is being said about your brand and your products/services.
- Feed the information into your CRM system to improve your e-marketing efforts
- Gain in reactivity to respond both to crises or to build further on successes
- Find out where conversations are taking place so you can target those platforms.
- Identify the influencers so you can approach them and aim to work with them.

Video Marketing

Video marketing may seem incomprehensible, complicated, and luxurious—it's not! It can be as humble as shooting videos on your mobile phone and editing them into one video with music and your organization logo.

Benefits of Video Marketing

- In addition to the entertainment feature, more and more marketers are focusing on video marketing categories because of how helpful they are think about it from your own viewpoint for a minute.
- Spend time reading about the steps of a company's goals process or watch an animation to assistant each step with a visual aid? If you're like 80 percent of the population, you'd relatively watch the video.

UX & UI Design

So here are the basic definition:

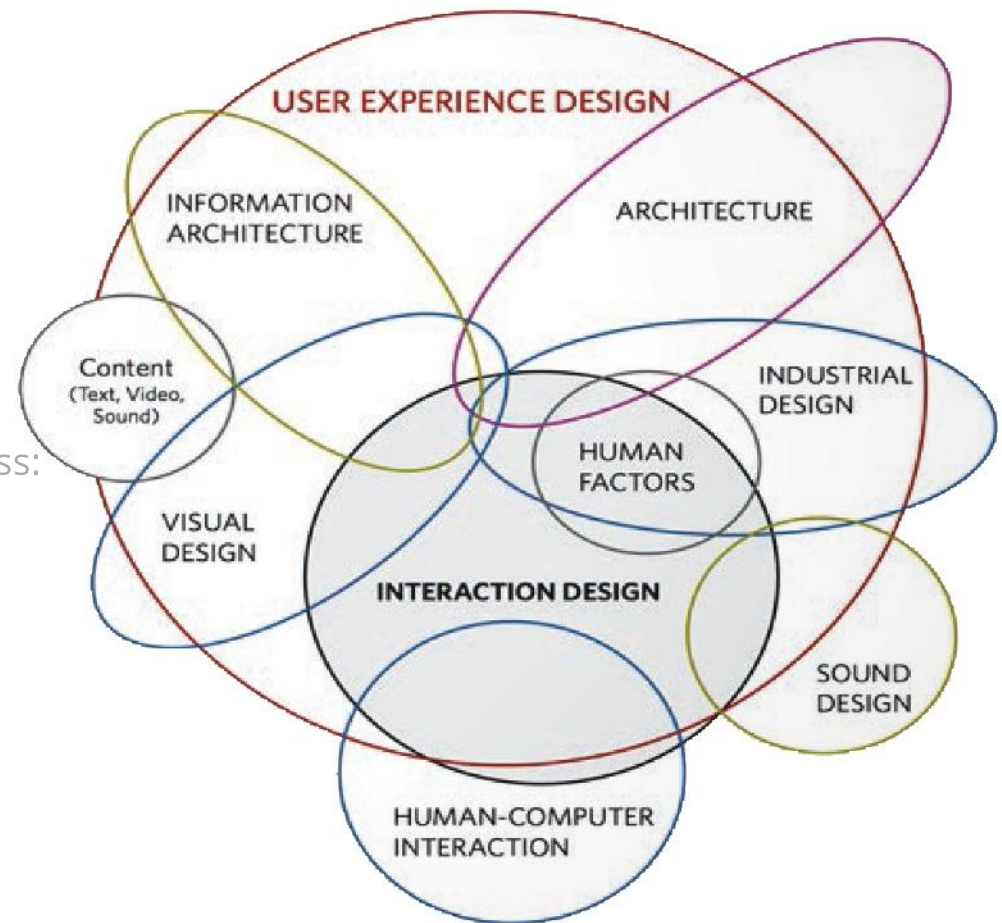

User Interface Design Ensures a web site achieves its purpose ; people find their

User Experience Design Ensures people feel good about the web site they enjoy the experience and want to come back.

Here what comes into the UI and UX design process:

It's a complex field. We get to the heart of it and make it work

Now we're getting technical!

Services

Design

Web Design

Our websites are made to stack rapidly and be natural.

This enables us to give you and your clients with the most agreeable experience possible.

We pursue the standards and proposals from search engines and web controllers made each year.

We as a whole know innovation and patterns change regularly and quick on the web, so we make a point to dependably remain dependably in the know regarding their prerequisites with each undertaking we make.

Infographics

We produce infographics that combine the best of text, images and design to tell a captivating story.

It's not just a passing trend - all the statistics are pointing to the sky. Why are infographics such an effective marketing tool?

- **Speed** - People are short on time and inundated with info. Here the message is short and sweet.
- **Effectiveness** - A message that is visual is more easily understood and remembered.
- **Conviction** - When presented with facts and figures, people adhere more easily.
- **Credibility** - Producing infographics portrays you as an expert in your field.
- **Traffic booster** - More likely to be shared, infographics drive users to your site.

Visual Identity & Branding

Your brand is the soul of your company. Every visual representation of your brand the name, the logo, the symbols, the fonts - convey meaning and create an emotional link between you and your customers.

When designing your visual identity, we follow a creative process:

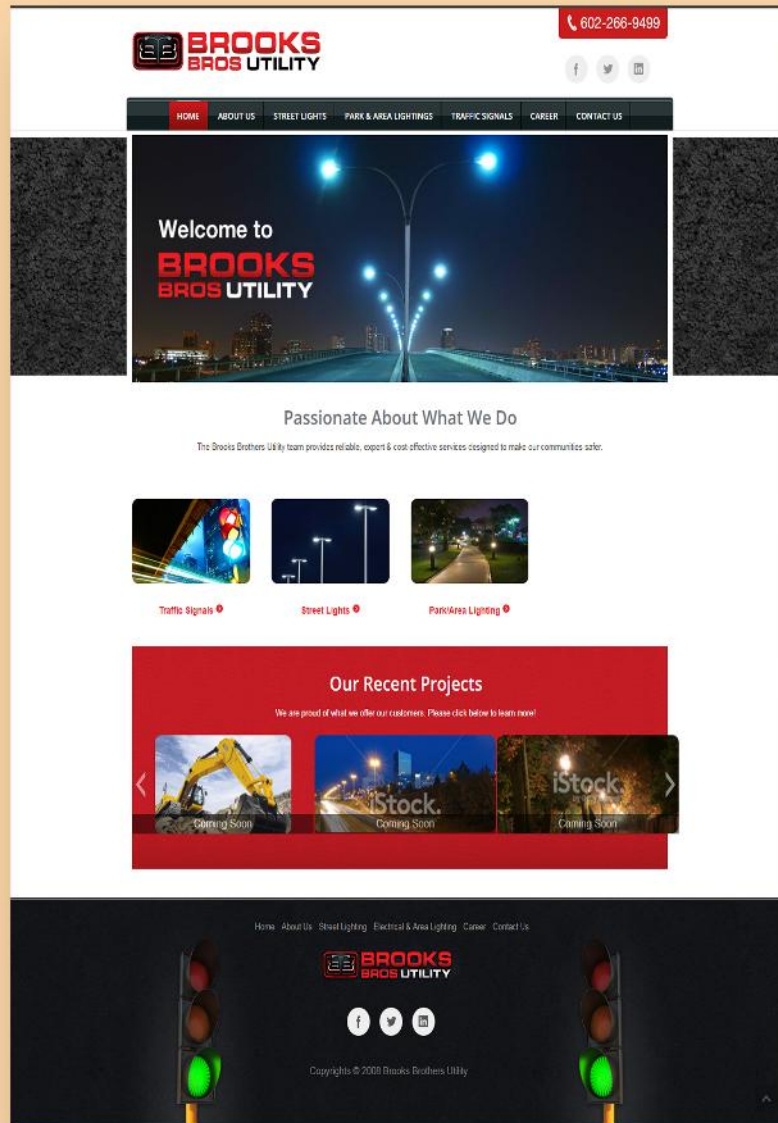

- We put together a thorough creative brief, analysing every aspect of your brand (target audience, positioning, values, mission, personality etc...)
- We drill down to pinpoint the brand promise, which must stand out clearly through the sum of representations.
- We build up your visual identity (logo, fonts, colours, photography, icons...)
- We ensure that every aspect can be used across all communication materials (online and in print).
- Upon request, we can produce your 'Brand Guidelines', a working document to be used by any third party involved in communicating on behalf of your brand.
